Dear Sir,

I notice in the "Wireless World" dated May 12th, the Amateur Transmitting Stations you have heard on your Wireless Set.

I wonder if you would be good enough to listen in at 11 p.m. (B.S.T.) on Sunday 3rd June and also at the same time on Monday, June 4th. I wish to test C.W. Transmissions on 250 metres which will be followed by Telephony, although I doubt if the latter will reach you, and should be most happy if you would be good enough to make this test for me, and report afterwards.

Thanking you in advance, dear Sir,

Yours faithfully,

LW/AY.
